TO KNOW AND BE DARE - The hungarian board game -

Once upon a time, the hungarian LEOs had a DREAM:

„We want to help in preventing blindness caused by diabetes.”

In 2006, they fulfilled it, they renewed an old board game, called „*To know and be dare!*” It was a game for children suffering in 1st type diabetes, and it’s aim was to teach them how to live a full life.

The game is still a great success in Hungary. Hundreds of children sits down to play with the game on exhibitions, learning more about their special lifestyle by answering questions about diabetes.

Encouraged by their success, hungarian LEOs are dare enough to dream BIGGER DREAMS. Our new aim is to create the international version of the board game. To offer the opportunity of cooperation for LIONS and LEOs all around Europe!

OF COURSE YOU WOULD LIKE TO TAKE PART in this project! How? You have several ways to join!

Through service:

- ☺ LIONS and LEO cooperation - *spread the idea*
- ☺ Company support - *finding sponsors for the renewal*

With your help we will be able to produce a multilingual board game beneficial in every country.
